GTA Concealed Carry – check for updates

One long-time goal of GTA is to have a safe facility where members can practice their CCW skills. The green and white sticker seen on some badges signify the member has his or her CCW license and has gotten permission to carry a loaded weapon concealed on the range.

GTA encourages the safe practice of CCW skills. We have a few rules you must comply with.

1 You must get permission and have your badge on.

2 Your weapon must be concealed. LEOs must display their shield to carry in any manner.

3 You may practice on any unoccupied range or as a participant in a group activity.

4 The match director/instructor/activity leader needs to be notified and has the right to make their activity a cold range requiring everyone to load on command at the firing line.

5 You may carry a concealed weapon and shoot a second weapon. For example, you could carry a .380 in a pocket holster and shoot 1911 in competition and nobody needs to know.

Do we have to say this? **Unsafe activity can result in losing your membership.**
